Table of Contents Volume 184, 1991

Number 1

Z. Hejnowicz, K. Hejnowicz: Modeling the formation of root apices 1

Y. Liénart, C. Gautier, A. Domard: Isolation from *Rubus* cell-suspension cultures of a lectin specific for glucosamine oligomers 8

D.H.P. Barratt, J.A. Clark: Proteins arising during the late stages of embryogenesis in *Pisum sativum* L. 14

K. Vad, J.D. Mikkelsen, D.B. Collinge: Induction, purification and characterization of chitinase isolated from pea leaves inoculated with *Ascochyta pisi* 24

Z.-H. Yin, K. Siebke, U. Heber: Light-dependent pH changes in leaves of C_3 plants. IV. Action spectra indicate indirect energization of proton transport into mesophyll vacuoles by cyclic photophosphorylation 30

C.A. Kettleborough, A.L. Phillips, A.J. Keys, M.A. Parry: A point mutation in the N-terminus of ribulose-1,5-bisphosphate carboxylase affects ribulose-1,5-bisphosphate binding 35

K. Saito, M. Yamazaki, H. Kaneko, I. Murakoshi, Y. Fukuda, M. Van Montagu: Tissue-specific and stress-enhancing expression of the TR promoter for mannopine synthase in transgenic medicinal plants 40

A.J. Miller, R.-G. Zhen: Measurement of intracellular nitrate concentrations in *Chara* using nitrate-selective microelectrodes 47

J.L. García-Martinez, C. Santes, S.J. Croker, P. Hedden: Identification, quantitation and distribution of gibberellins in fruits of *Pisum sativum* L. cv. Alaska during pod development 53

U. Kutschera: Osmotic relations during elongation growth in hypocotyls of *Helianthus annuus* L. 61

H.D. Blackbourn, J.H. Walker, N.H. Battey: Calcium-dependent phospholipid-binding proteins in plants. Their characterisation and potential for regulating cell growth 67

B. Seith, C. Schuster, H. Mohr: Coaction of light, nitrate and a plastidic factor in controlling nitrite-reductase gene expression in spinach 74

L.H. Pratt, Y. Shimazaki, S.J. Stewart, M.-M. Cordonnier: Large-scale partial purification of phytochrome from green leaves of *Avena sativa* L. 81

L.H. Pratt, S.J. Stewart, Y. Shimazaki, Y.-C. Wang, M.-M. Cordonnier: Monoclonal antibodies directed to phytochrome from green leaves of *Avena sativa* L. cross-react weakly or not all with the phytochrome that is most abundant in etiolated shoots of the same species 87

Y.-C. Wang, S.J. Stewart, M.-M. Cordonnier, L.H. Pratt: *Avena sativa* L. contains three phytochromes, only one of which is abundant in etiolated tissue 96

U. Russ, F. Grolig, G. Wagner: Changes of cytoplasmic free Ca^{2+} in the green alga *Mougeotia scalaris* as monitored with indo-1, and their effect on the velocity of chloroplast movements 105

D.L. Melroy, E.M. Herman: TIP, an integral membrane protein of the protein-storage vacuoles of the soybean cotyledon undergoes developmentally regulated membrane accumulation and removal 113

R. Aloni, M. Griffith: Functional xylem anatomy in root-shoot junctions of six cereal species 123

L. Ruiz-Avila, M.D. Ludevid, P. Puigdomènech: Differential expression of a hydroxyproline-rich cell-wall protein gene in embryonic tissues of *Zea mays* L. 130

C. Fanutti, M.J. Gidley, J.S.G. Reid: A xyloglucan-oligosaccharide-specific α-D-xylosidase or *exo*-oligoxyloglucan-α-xylohydrolase from germinated nasturtium (*Tropaeolum majus* L.) seeds. Purification, properties and its interaction with a xyloglucan-specific *endo*-(1 → 4)-β-D-glucanase and other hydrolases during storage-xyloglucan mobilisation 137

K.A. Malik, P.K. Saxena: Regeneration in *Phaseolus vulgaris* L. Promotive role of N^6-benzylaminopurine in cultures from juvenile leaves 148

L. Pistelli, L. De Bellis, A. Alpi: Peroxisomal enzyme activities in attached senescing leaves 151

Number 2

P.M. Pechan, D. Bartels, D.C.W. Brown, J. Schell: Messenger-RNA and protein changes associated with induction of *Brassica* microspore embryogenesis 161

R. Scheuerlein, K. Schmidt, M. Poenie, S.J. Roux: Determination of cytoplasmic calcium concentration in *Dryopteris* spores 166

J. Brederoo, P. de Wildt, C. Popp-Snijders, R.F. Irvine, A. Musgrave, H. van den Ende: Polyphosphoinositol lipids in *Chlamydomonas eugametos* gametes 175

A. Olmedilla, J.A.M. Schrauwen, G.J. Wullems: Visualization of starch-synthase expression by in situ hybridization during pollen development 182

M.C. Webb, B.E.S. Gunning: The microtubular cytoskeleton during development of the zygote, proembryo and free-nuclear endosperm in *Arabidopsis thaliana* (L.) Heynh 187

N. Benhamou, D. Mazau, J. Grenier, M.-T. Esquerré-Tugaye: Time-course study of the accumulation of hydroxyproline-rich glycoproteins in root cells of susceptible and resistant tomato plants infected by *Fusarium oxysporum* f. sp. *radicis-lycopersici* 196

J.W. La Claire II: Immunolocalization of myosin in intact and wounded cells of the green alga *Ernodesmis verticillata* (Kützing) Børgesen 209

C.L. Troxell, C. Scheffey: Ionic currents flow through *Micrasterias* and *Closterium* cells during expansion of the primary cell wall 218

W. Bilger, O. Björkman: Temperature dependence of violaxanthin de-epoxidation and non-photochemical fluorecence quenching in intact leaves of *Gossypium hirsutum* L. and *Malva parviflora* L. 226

W.J. Henley, G. Levavasseur, L.A. Franklin, C.B. Osmond, J. Ramus: Photoacclimation and photoinhibition in *Ulva rotundata* as influenced by nitrogen availability 235

M. Bouzayen, G. Felix, A. Latché, J.-C. Pech, T. Boller: Iron: an essential cofactor for the conversion of 1-aminocyclopropane-1-carboxylic acid to ethylene 244

Z.G. Cerović, Z. Vučinić, D.A. Walker: Photosynthetic oxygen evolution and chlorophyll fluorescence in intact isolated chloroplasts on a solid support; the influence of orthophosphate 248

M. Wisniewski, G. Davis, K. Schaffer: Mediation of deep supercooling of peach and dogwood by enzymatic modifications in cell-wall structure 254

M. Bokern, V. Wray, D. Strack: Accumulation of phenolic acid conjugates and betacyanins, and changes in the activities of enzymes involved in feruloylglucose metabolism in cell-suspension cultures of *Chenopodium rubrum* L. 261

T. Rouxel, A. Kollmann, L. Boulidard, R. Mithen: Abiotic elicitation of indole phytoalexins and resistance to *Leptosphaeria maculans* within Brassiceae 271

G. Griffiths, J.L. Harwood: The regulation of triacylglycerol biosynthesis in cocoa (*Theobroma cacao*) L. 279

K. Denzel, G.G. Gross: Biosynthesis of gallotannins. Enzymatic 'disproportionation' of 1,6-digalloylglucose to 1,2,6-trigalloylglucose and 6-galloylglucose by an acyltransferase from leaves of *Rhus typhina* L. 285

Number 3

K. Robinson-Beers, R.F. Evert: Ultrastructure of and plasmodesmatal frequency in mature leaves of sugarcane 291
K. Robinson-Beers, R.F. Evert: Fine structure of plasmodesmata in mature leaves of sugarcane 307
T. Teucher, E. Heinz: Purification of UDP-galactose: diacylglycerol galactosyltransferase from chloroplast envelopes of spinach (*Spinacia oleracea* L.) 319
D. Lazof, A. Läuchli: Complementary analysis of freeze-dried and frozen-hydrated plant tissue by electron-probe X-ray microanalysis: Spectral resolution and analysis of calcium 327
D. Lazof, A. Läuchli: The nutritional status of the apical meristem of *Lactuca sativa* as affected by NaCl salinization: An electron-probe microanalytic study 334
D.J. Morré, C. Liedtke, A.O. Brightman, G.F.E. Scherer: Head and stalk structures of soybean vacuolar membranes 343
C. Domoney, N. Ellis, L. Turner, R. Casey: A developmentally regulated early-embryogenesis protein in pea (*Pisum sativum* L.) is related to the heat-shock protein (HSP70) gene family 350
M. Fladung, G. Bossinger, G.W. Roeb, F. Salamini: Correlated alterations in leaf and flower morphology and rate of leaf photosynthesis in a midribless (*mbl*) mutant of *Panicum maximum* Jacq. 356
J. Gleitz, J.-P. Schnitzler, D. Steimle, H.U. Seitz: Metabolic changes in carrot cells in response to simultaneous treatment with ultraviolet light and a fungal elicitor 362
T.P. Cooney, H.M. Nonhebel: Biosynthesis of indole-3-acetic acid in tomato shoots: Measurement, mass-spectral identification and incorporation of ^2H from ^2H_2O into indole-3-acetic acid, D- and L-tryptophan, indole-3-pyruvate and tryptamine 368
P. Westhoff, K. Offermann-Steinhard, M. Höfer, K. Eskins, A. Oswald, M. Streubel: Differential accumulation of plastid transcripts encoding photosystem II components in the mesophyll and bundle-sheath cells of monocotyledonous NADP-malic enzyme-type C_4 plants 377
H. Heydt, E. Steudle: Measurement of negative pressure in the xylem of excised roots. Effects on water and solute relations 389
M.O. Desbiez, M. Tort, M. Thellier: Control of a symmetry-breaking process in the course of the morphogenesis of plantlets of *Bidens pilosa* L. 397
R. Edwards, J.W. Blount, R.A. Dixon: Glutathione and elicitation of the phytoalexin response in legume cell cultures 403
M.-C. Fortin, K.L. Poff: Characterization of thermotropism in primary roots of maize: Dependence on temperature and temperature gradient, and interaction with gravitropism 410
A. Rieger, R. Hampp: Intercellular compartmentation of basic carbon pathways in motor organs (pulvini) of leaves of *Phaseolus coccineus* L. 415

Number 4

S.G. Suh, W.J. Stiekema, D.J. Hannapel: Proteinase-inhibitor activity and wound-inducible gene expression of the 22-kDa potato-tuber proteins 423
H. Höfte, L. Faye, C. Dickinson, E.M. Herman, M.J. Chrispeels: The protein-body proteins phytohemagglutinin and tonoplast intrinsic protein are targeted to vacuoles in leaves of transgenic tobacco 431
E. Hirasawa, S. Yamamoto: Properties and synthesis de novo of auxin-induced α-amylase in pea cotyledons 438
S. Meiners, P.K. Gharyal, M. Schindler: Permeabilization of the plasmalemma and wall of soybean root cells to macromolecules 443
H. Canut, S. Baudracco, M. Cabané, A.M. Boudet, G. Marigo: Preparation of sealed tonoplast and plasma-membrane vesicles from *Catharanthus roseus* (L.) G. Don. cells by free-flow electrophoresis 448
N. Benhamou, P.J. Lafontaine, D. Mazau, M.T. Esquerré-Tugayé: Differential accumulation of hydroxyproline-rich glycoproteins in bean root nodule cells infected with a wild-type strain or a C_4-dicarboxylic acid mutant of *Rhizobium leguminosarum* bv. *phaseoli* 457
H.E. Zieschang, A. Sievers: Graviresponse and the localization of its initiating cells in roots of *Phleum pratense* L. 468
J. Cordewener, H. Booij, H. van der Zandt, F. van Engelen, A. van Kammen, S. de Vries: Tunicamycin-inhibited carrot somatic embryogenesis can be restored by secreted cationic peroxidase isoenzymes 478
M. Bezděk, B. Koukalová, B. Brzobohatý, B. Vyskot: 5-Azacytidine-induced hypomethylation of tobacco HRS60 tandem DNA repeats in tissue culture 487
N. Sæther, T.-H. Iversen: Gravitropism and starch statoliths in an *Arabidopsis* mutant 491
P.A. Ensminger, H.R. Schaefer, E.D. Lipson: Action spectra of the light-growth response of *Phycomyces* 498
P.A. Ensminger, E.D. Lipson: Action spectra of the light-growth response in three behavioral mutants of *Phycomyces* 506
T.C. Fox, R.A. Kennedy: Mitochondrial enzymes in aerobically and anaerobically germinated seedlings of *Echinochloa* and rice 510
R. Wayne, A. Kadota, M. Watanabe, M. Furuya: Photomovement in *Dunaliella salina*: Fluence rate-response curves and action spectra 515
U. Holthaus, K. Schmitz: Stachyose synthesis in mature leaves of *Cucumis melo*. Purification and characterization of stachyose synthase (EC 2.4.1.67) 525
D. Rentsch, E. Martinoia: Citrate transport into barley mesophyll vacuoles – comparison with malate-uptake activity 532
E. Ögren: Prediction of photoinhibition of photosynthesis from measurements of fluorescence quenching components 538
